DETAILED ACTION

Allowable Subject Matter

1. Claims 6 and 12 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 6 and 12, the prior art of the record fails to show or fairly suggest an imaging system including a solid-state CMOS imaging device and a signal processing semiconductor integrated circuit for processing read-out signals of pixels from said solid-state CMOS imaging device, comprising a program which controls both a transmission gain of said read-out signal of each pixel and a number of charge storage lines constituted by horizontal scanning lines as a unit, and judges whether a difference between maximum brightness values and minimum brightness values of the second area over a predetermined number of frames remain less than a predetermined value, and whether maximum brightness values and minimum brightness values of the first area over a predetermined number of frames satisfy a predetermined relation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
